Experience

National Australia Bank (NAB) / Software Engineer Intern

2022, Etown Central, district 4, Ho Chi Minh, Viet Nam

- Working in a team - Target: Creating a mini-app called: Contact App, that uses AWS server. For purpose helping record calls from customers.
- Taking part as Front-end developer role in the project, mainly using ReactJS framework; so in the end, I have a quite general view how the agile team works, the process of a project to be approved in Jenkins.
- Practicing English to reach C1 level.

ISC QUANG TRUNG / AI developer trainee

2022, Official website: [ISC Quang Trung](#)

- Finished project: Predict Plant sickness through sample pictures. Source: Kaggle
- Using Python with the libraries extending from Tensor Flow, Pandas to deal with analyzing pictures.
- In the process of getting familiar with Machine Learning.
- Demo video: [Capstone Project](#)

SELF-DEVELOPMENT / Freelancer

2023

While taking a break after internship and training, I have practiced myself from mini-projects to tools that can be helpful in daily life and attended **Google courses** to improve coding skills and general knowledge.
